

The first meeting of the 2017/ 2018 season is on **Monday 4th September**, it starts at **8pm** sharp in our usual venue of Ballyclare High School Lecture Theatre.

[Directions can be found here.](#)

We always like to start the new season with a bang, so it give me great pleasure to introduce our speaker for September:

Dr. Carolin Crawford will be joining us from **Cambridge**, and will be giving a talk titled '**Cassini at Saturn**

'. This is the first time Carolin has been over with us and I'm sure you will all make her very welcome!

As you are aware this is a great time to have a talk on Cassini as it now enters the last few days of its fascinating mission and who better to give us a talk on it, than a previous winner of the 'Women Of Outstanding Achievement Award' for her outstanding abilities at science communication!

I say this quite often, but this really isn't a lecture you want to miss!

About Dr. Carolin Crawford: I'm just going to give you this link to her [Wiki page](#) as I could never fit all her achievements on here!

As this is the first meeting of the new season, we recommend you try to make it to the school early, as we will be taking membership renewals and this can take some time. If you're joining us for the first time or renewing your membership we would like to thank you for your continuing support!

Please note: Under 16's are very welcome but due to our child protection policy, we ask that they are accompanied by an adult.

As always the talk is free, a donation bucket is available at the door if you wish to support us in our work! Refreshments are available (also free) after the meeting and so is some good chat!

Hope to see you all there!
