

Coronavirus Covid-19 will affect all of us and as with other organisations we don't want to put anyone's life at risk.

We understand that a lot of our members or their family fall into the category of higher risk, also our meetings being held in a school has led us to the decision to cancel the last two meetings of the season.

So, to confirm **there will be no meeting on Monday 6th April or Monday 4th May** which is also our AGM. We the committee feel this is the correct decision.

Hopefully we will all overcome this and ALL of us will come together again sometime in the near future to enjoy this hobby we love.

Life still goes on and so does Astronomy, so please keep looking up and we will continue to keep you up to date with what's happening out there and any society news through our usual media outlets.

Stay safe
NIAAS Committee.
