

It is with deepest sadness that we share with you the news of the passing of NIAAS member Patrick Watson. Patrick was a long time member and supporter of our society and had also served on the committee. In fact Patrick actually met his wife Deborah on a club outing to the Armagh Planetarium.

We will really miss him at our lectures as his knowledge of Astronomy always shone through, he was great at keeping our speakers on their toes with really intelligent questions.

On behalf of the society committee, members and friends of the NIAAS, we would like to offer our thoughts and prayers to Patrick's family at this sad time.

Patrick (Left) with his brother-in-law Martin
