

Due to the great increase of interest, we are very proud to introduce a new associate membership pack!

Are you interested in local astronomy and would like to become a member of the NIAAS but you're unable to attend our meetings in Ballyclare? Then Associate Membership is for you!

The Associate Membership Pack:

Enclosed in the pack is: your membership card, key ring and a couple of articles which you may find very useful... 'Choosing your first telescope' and 'The Constellations. A season by season guide'. These booklets are written by us for our members and are a great guide to get you started in astronomy.

Your membership also includes a year's subscription to our bi-monthly newsletter 'Azimuth', which we will send to your door.

But that's not all, you will also get details of discounts for NIAAS members for telescope equipment. This alone could easily pay for the membership itself.

The price? 1 years associate membership is £15

[Fill in the application form here and we'll get in contact with you](#)
