TOTAL LUNAR ECLIPSE 2007

A total eclipse of the Moon will take place on **Saturday 3rd March**.

The **East Antrim Astronomical Society** will be holding a public viewing of the event at **Ballyearl Arts and Leisure Centre, Newtownabbey**, beginning at **7.30pm**. All members of the public are invited to share in the spectacle with us.

We will have our telescopes set up to view the eclipse and other night-sky wonders now visible, such as the rings and moons of **Saturn**, the **Great Nebula in Orion**, where stars are being born and the **Pleiades star cluster** (Seven Sisters).

Dr Ed. Barnett, a leading Astronomy Educationalist, will also be delivering a **free talk** on **Beginning Astronomy** inside the Arts Centre.

All ages are welcome to join us to learn more about what can be seen in the Night Sky.

We would advise those attending to dress warmly for the event in order to enjoy it, as temperatures may well be low due to the time of year.

For more information visit our website at <http://www.eaas.co.uk> or Telephone the **EAAS Chairman Mark Stronge** at **028-44821630**
